QRF Explanation: Quality Results Formula - A mathematical formula, developed by the web site www.minnesotascores.net to measure how well a basketball team is playing against its opponents. In short, every game is assigned a point value for each team based on how many wins the opponent has and the margin of victory. Please visit their web site for additional information on the QRF. All QRF rankings are as of 2/28/09.

Breakdown Section Predictions provided from The Breakdown at www.MNSportsPreview.com
